

ConPDS Checker app

[Container depots and terminals]

The time saving photo documentation app

Photo documenting intermodal containers

ConPDS Checker have several time-saving use cases, for example:

- Document container damages
- Inspection of containers at gate-in/gate-out
- Deliver on your customers requirement for photo documentation

Save time and eliminate errors

No more hassle using traditional digital cameras, handling memory cards, uploading images and time-consuming sorting and renaming of photos.

The app uses our **optical character recognition (OCR) engine** and built-in automations to eliminate the risk of costly errors.

Complete the task in 4 easy steps

The ConPDS Checker app allows you to complete otherwise time-consuming work tasks in 4 easy steps:

1. Open the ConPDS Checker app on the mobile device
2. Take a photo of the container BIC code (OCR)
3. Take relevant photos of the container
4. Click finish - Job done!

Photos are now uploaded to our cloud solution for review and further management. From here you can send the photos to your customers or 3-part systems, such as. DERT, EOS, Medlog, etc. or other relevant systems.

Implementation in 30 min. with no up-front investment

ConPDS Checker easily integrates with current systems such as DERT and EOS and the implementation requires no up-front investment. We take care of everything and get you up and running in just 30 min.

Other features and benefits:

- SaaS solution
- Automated workflows depending on your needs and preferences
- Works with most smartphones (iOS and Android)
- Works online and offline
- **Industry leading support... expect more!**

Trusted partner - satisfied customers

"For Harbour Reefer Service, the ConPDS Checker solution is a great tool for capturing photos of every repair job we do. The solution enables us to provide almost real-time photo documentation reports to our agents and customers."

We have experienced the ConPDS Checker app to be user-friendly and easy to use. A great advantage is that the photos are uploaded directly from smartphones to the user-friendly web interface, allowing for a very efficient process."

- Pieter van Dam, Technical supervisor,
Harbour Refer Service, Rotterdam, NL
